Current Issues

Regulatory Framework

Institutional Performance

Measurement Standard of Zakat Institution

Technological Disruption

Interpretation of *Fiqh az Zakah*

Alignment with global issues such as SDGs

Global Cooperation

Regulatory Framework: Typology of Zakat System

	Obligatory Zakat System	Voluntary Zakat System
Regulation	Type I: Comprehensive model	Type II: Partial model
No regulation		Type III: Secular model

Source : Beik (2013)

Type 1 of Zakat Regulation (1)

The existence of law governing zakat

Standardization of collection and distribution of zakat

Standard regulation on sources of zakatable items
(include all “shariah compliance” economic sectors)

Integrated and efficient structure of zakat institutions

Type 1 of Zakat Regulation (2)

Integration of zakat into fiscal and taxation systems as well as monetary and financial systems

Good governance for zakat administration

The use of zakat as one of the major development and poverty alleviation instruments

Institutional Performance

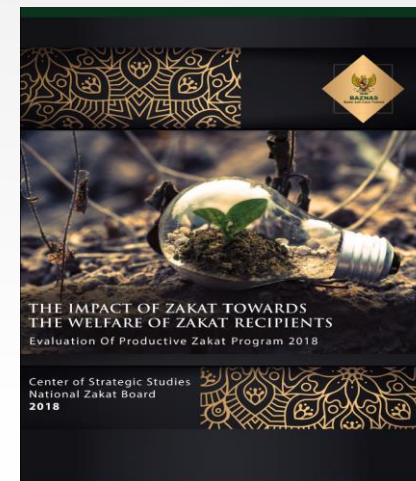

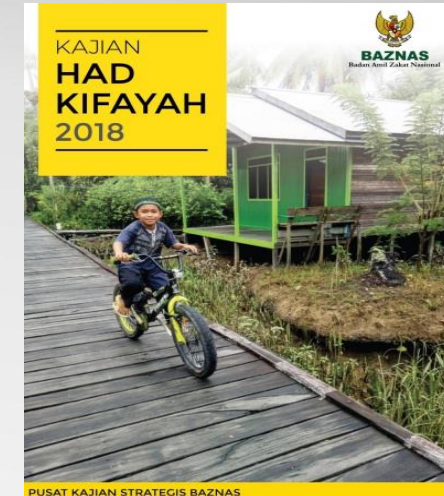

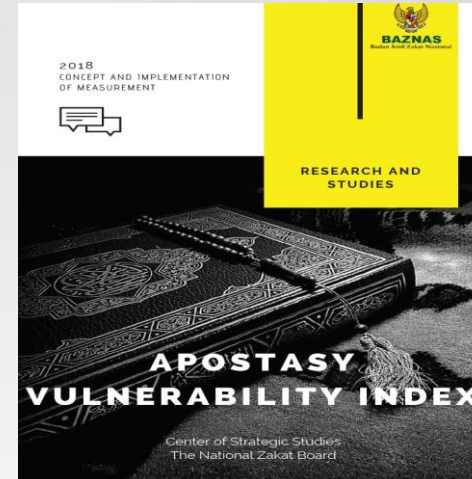

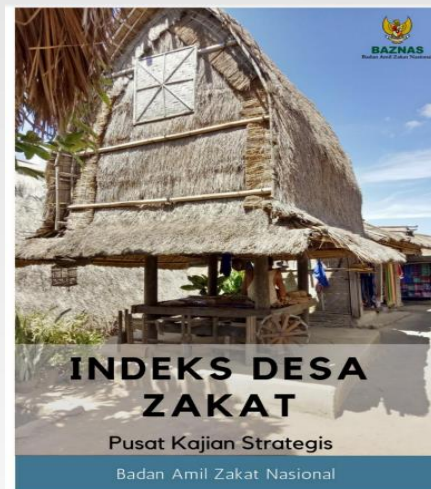

Organizational capacity to collect and distribute zakat fund

Qualified management system and human resource capacity

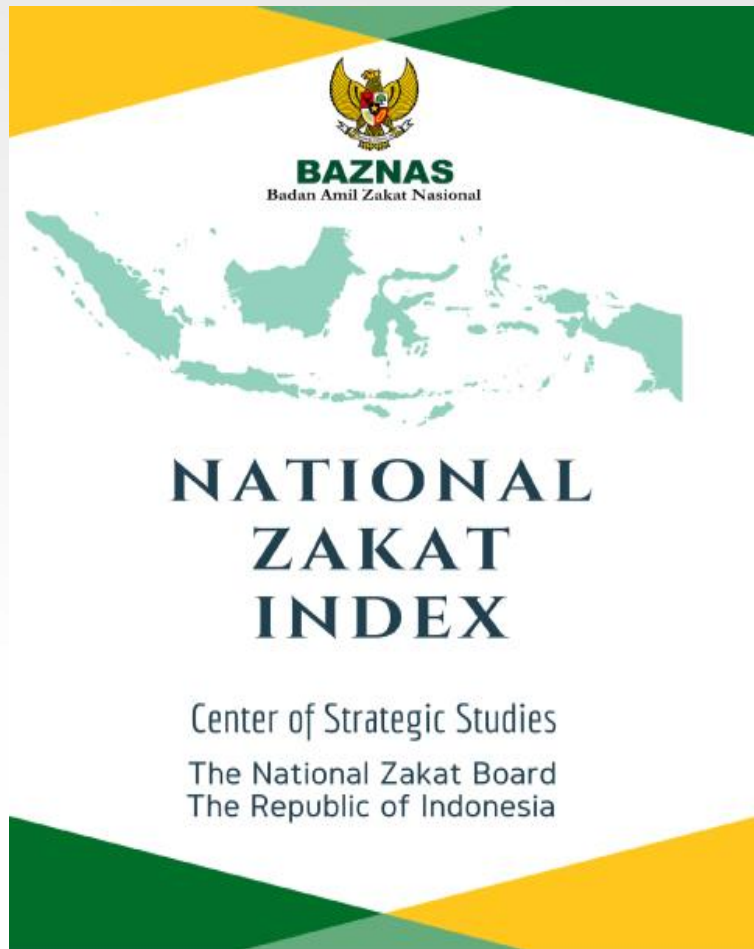

Transparency and accountability: Reporting system

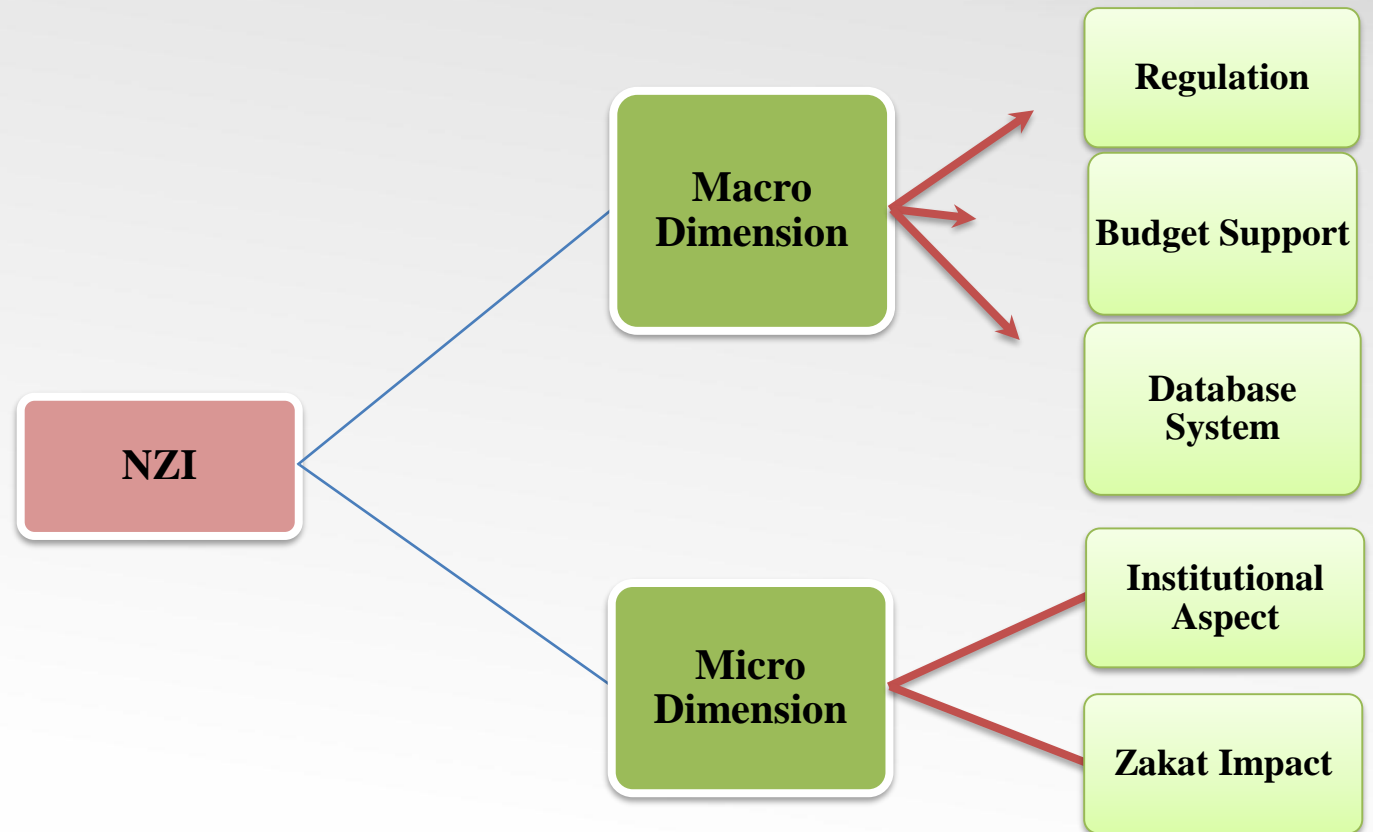

Measurement Standard of Zakat

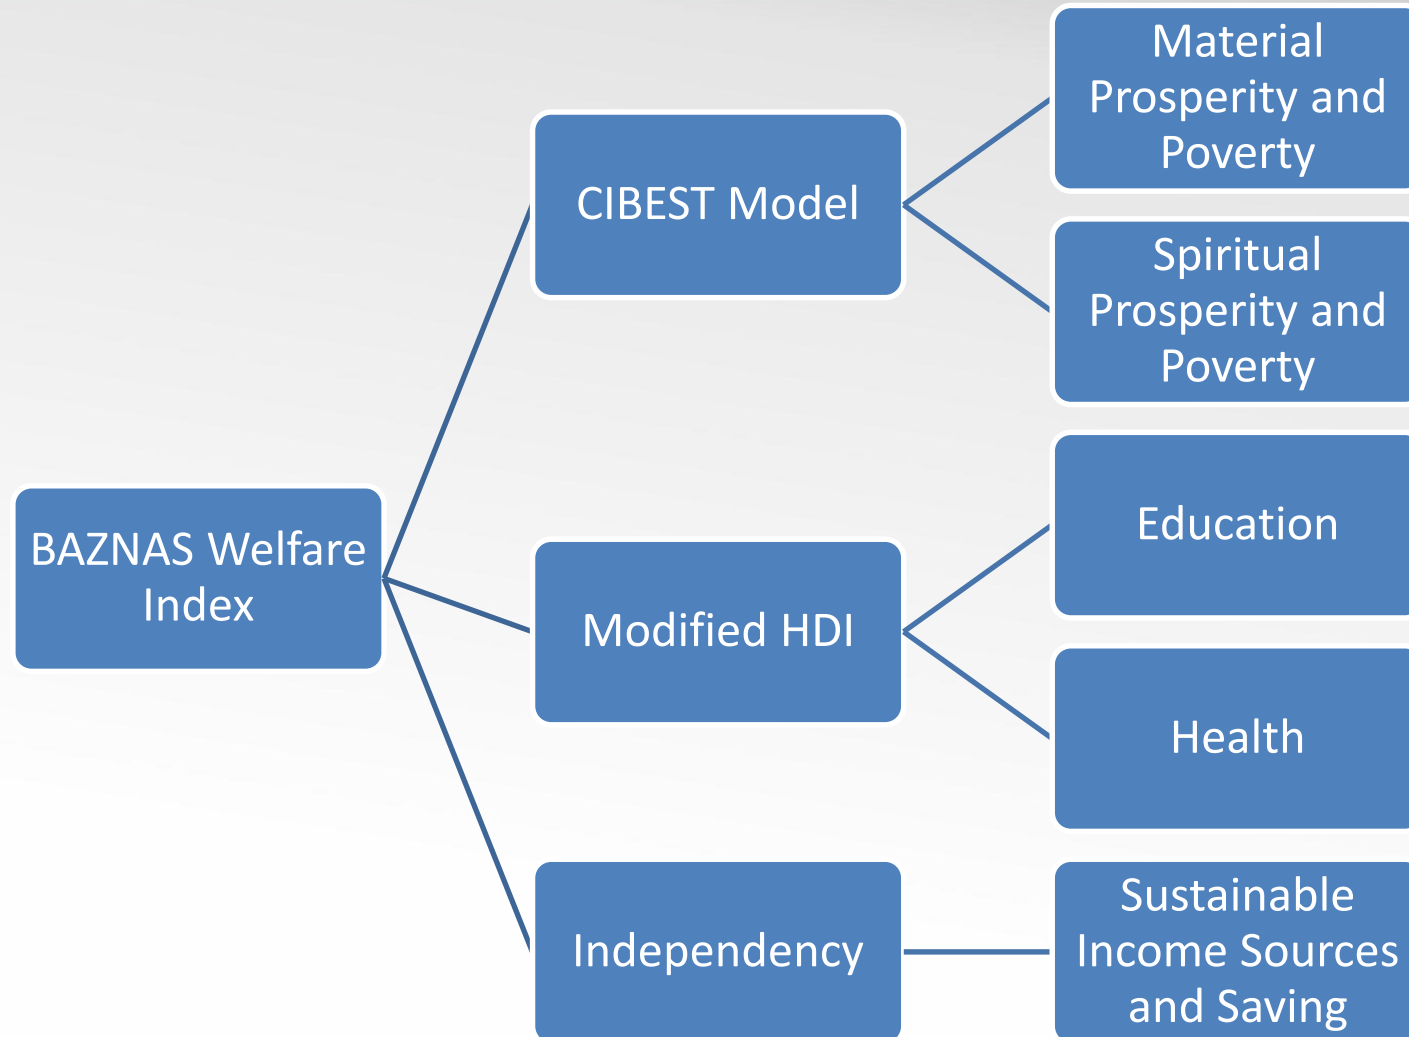

National Zakat System : Formulation of NZI (National Zakat Index)

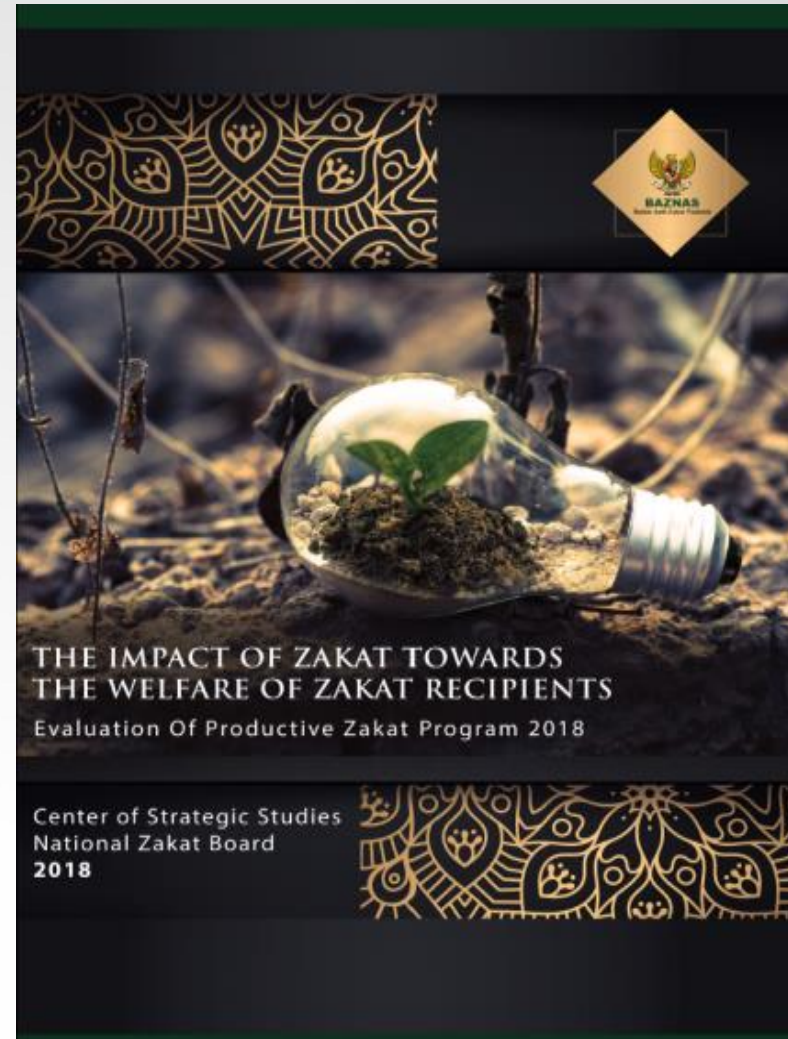

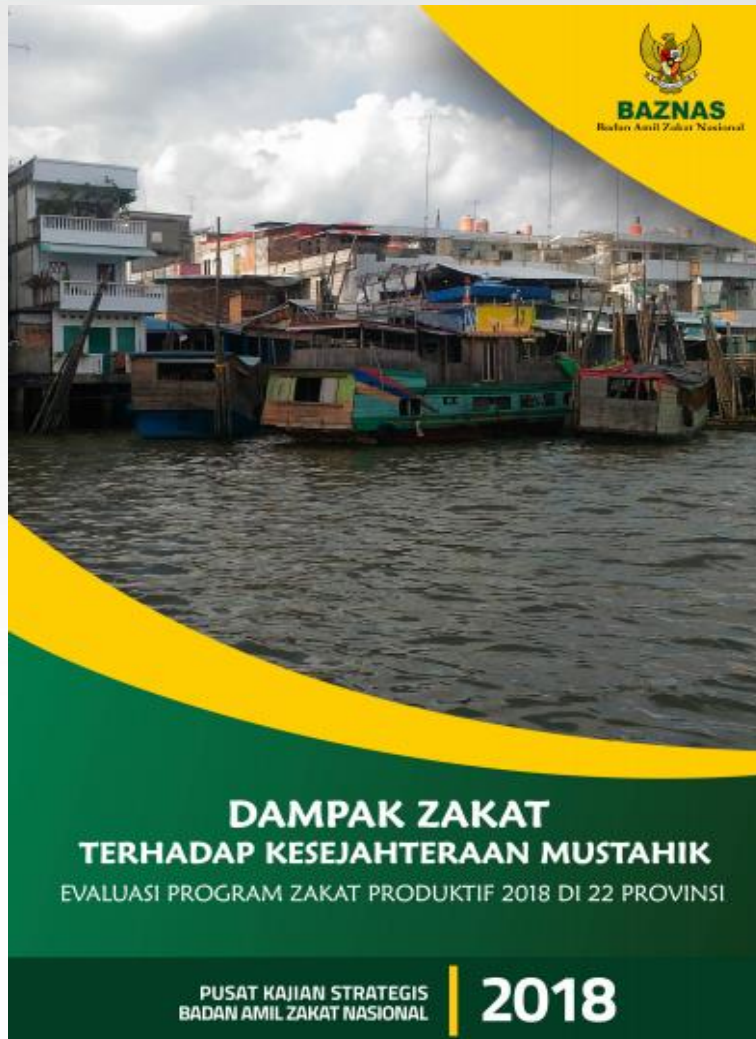

NZI Component

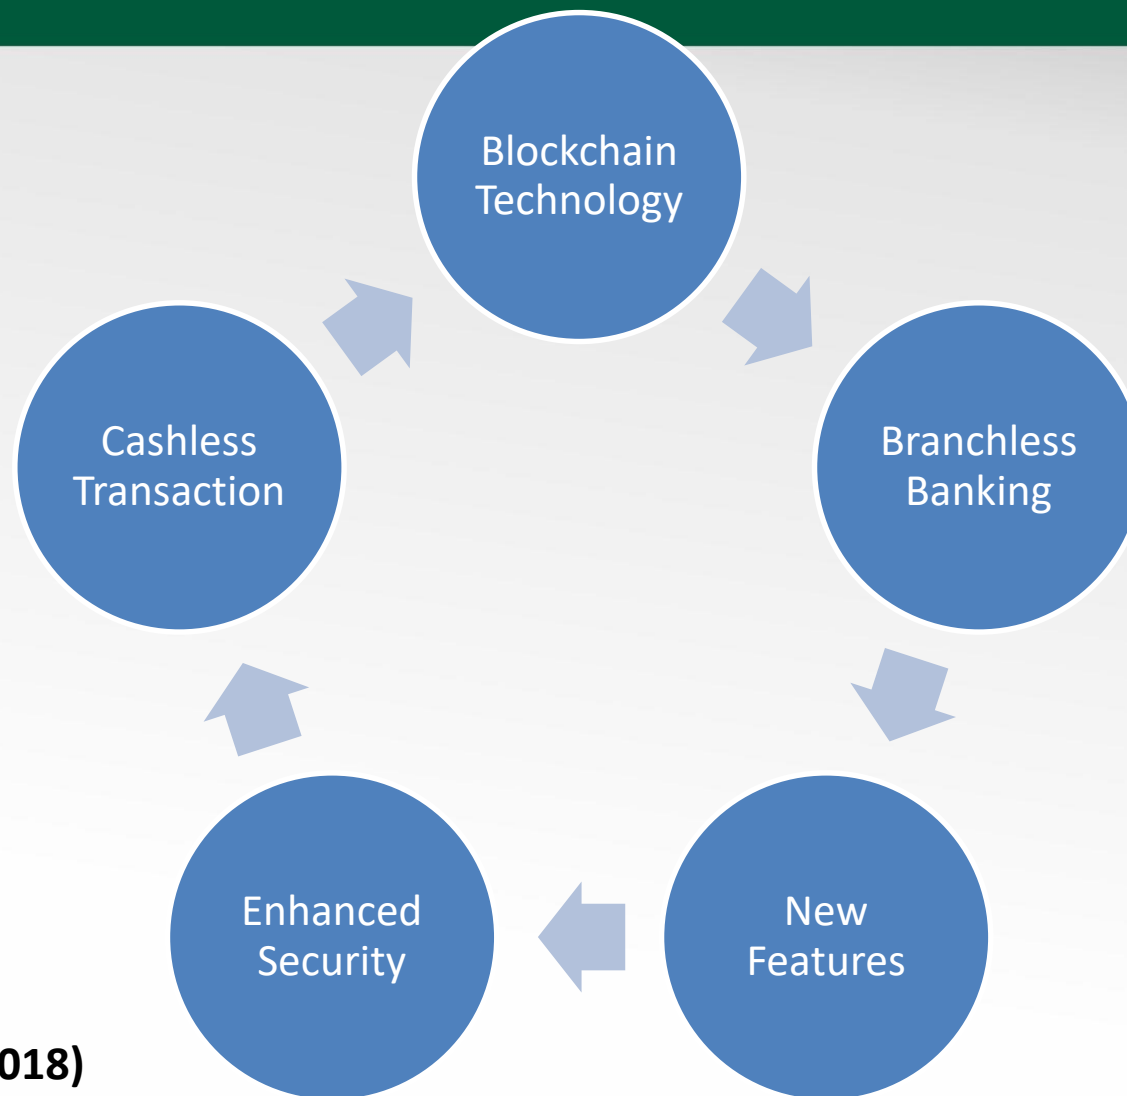

Zakat Distribution and Utilization (1)

Zakat Distribution and Utilization (2)

5 Most Impactful Digital Transformation
